

The Redwood *Symbol of Hope* Donor Circle

Leaving an abusive situation is one of the toughest things a woman will ever have to face. How will she look after her small children? Where will she find affordable housing? If she is new to Canada, how will she find support in an unfamiliar environment?

Too many women and children are living with domestic violence because they simply can not see a way out.

By becoming a member of the **Symbol of Hope Donor Circle**, you will be giving a family the courage and resources they need to get their lives back on track. It is a significant investment to provide a mother and two children with the customized range of services – from a secure home, to counseling, to legal support – they need to begin and sustain a new life free from violence. With your commitment today, women and children living with the pain and humiliation of domestic abuse can break the cycle of violence permanently, and find the promise of a brighter future. Free from fear. Free from threat.
